

OPTIMIZING COMMERCIAL CARD ACCEPTANCE

Boost Payment Solutions serves credit managers with solutions designed to expedite payments, optimize card acceptance by lowering card acceptance costs, automating commercial transaction processing and eliminating exposure to card data.

The Challenge: Inefficient and Expensive Payment Processes

Payments made by paper checks, ACH and virtual credit cards impose burdensome operational inefficiencies, delay suppliers' access to funds and complicate accounting.

- Delayed payments
- Insufficient remittance detail
- Manual processing and reconciliation
- Exposure to card data
- Requirement to share banking information

The Solution: Boost Intercept®

Boost Intercept®, the company's innovative payment platform, streamlines commercial card payments. by eliminating the need to support multiple V-Card platforms, manually process transactions or access card data. Leveraging Boost Intercept® expedited reconciliation through auto-postable reporting, and reduces the cost of acceptance by ensuring transactions qualify for level III large ticket rates.

What Our Customers Are Saying

"The Airport Authority was looking to lower its credit card processing costs. The migration to Boost Intercept® proved simple and fast, requiring no material changes in our systems or in the way we do business. This simple move yielded a 45% reduction in our card acceptance costs. Boost Intercept® also allowed us to strengthen our relationship with an important airline customer..."

Stan Van Ostran, Chief Financial Officer,
Metropolitan Nashville Airport Authority

"The people at Boost are truly experts in B2B payments. No other acquirers could help with our reconciliation issues while delivering a reliable and cost-effective solution. It now takes our AR team less than five seconds to reconcile credit card payments that may include hundreds of individual invoices."

Jesse Jones, President,
Associated Machine Company

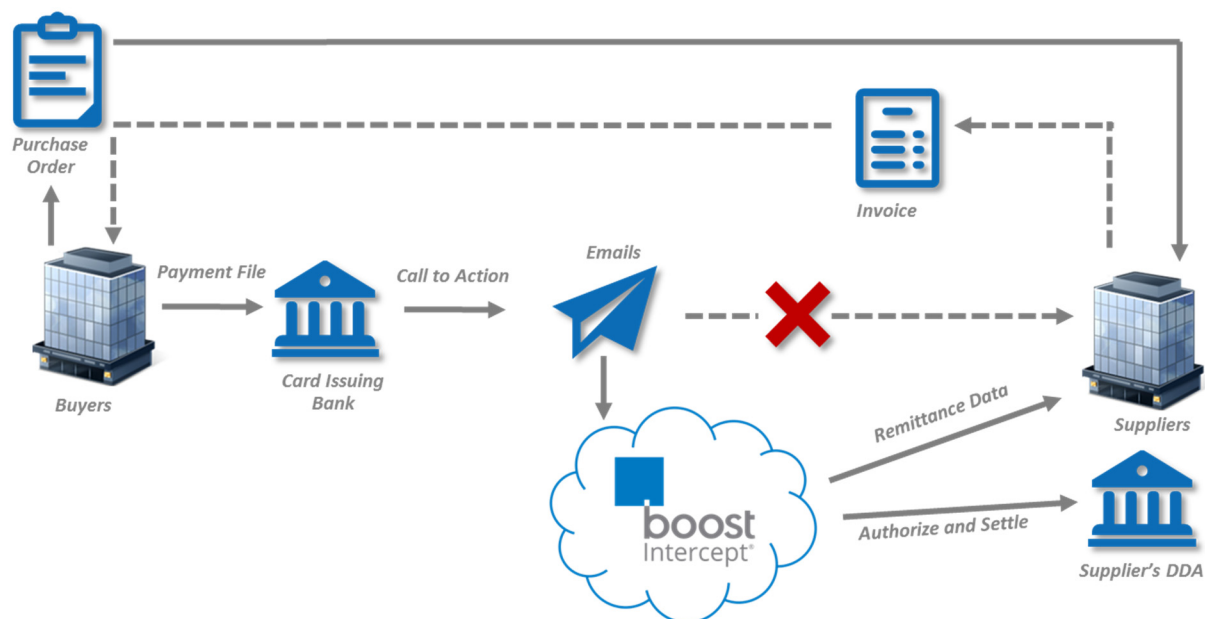

OPTIMIZING COMMERCIAL CARD ACCEPTANCE

The Benefits: Driving Efficiencies in Card Acceptance

Boost provides credit and accounts receivable managers with solutions that streamline payment processing and accounting.

- Discounted commercial interchange rates through Level III/large ticket pricing
- Automated payments – no manual key entry required
- Eliminate the need to store card data and comply with PCI DSS
- Detailed remittance reporting in customizable formats
- Seamlessly upload data into ERP or accounting systems

Simple and Rapid Implementation

- Fully automated – no human error
- No hardware or software required
- No exposure to card data
- Low transaction costs
- Single daily, auto-posted deposit for all card payments
- Timing of payments and remittance in sync
