Boost Payment Solutions' CEO to Present at Commercial Payments International Middle Market Summit

New York, New York (June 8, 2016) – Boost Payment Solutions, the leading B2B acquirer in the U.S. and a global provider of payment technologies, today announced that its Chairman & CEO, Dean M. Leavitt, will be presenting at the Annual CPI Middle Market Commercial Card & Payments Summit on June 16th in Chicago.

Many middle market companies continue to base their decision whether to accept commercial cards or not on inaccurate and/or incomplete information. Mr. Leavitt's presentation, "**Card Doesn't Have To Be A Four Letter Word**", will delve into the most recent trends and best practices in B2B payments and the latest value propositions that are available to suppliers that choose to accept commercial cards via acquirers offering programs specifically designed for the B2B community.

The Middle Market Commercial Cards & Payments Summit, hosted by CPI in partnership with EuroFinance is the only industry event dedicated to commercial cards and payments for the middle market, the biggest opportunity for commercial payments growth in the Americas.

Commercial Payments International and EuroFinance are affiliates of The Economist Group.

About Boost:

Boost Payment Solutions is the leading B2B acquirer in the U.S. and a global provider of payment technologies designed to eliminate the pain points associated with commercial card acceptance. Boost Intercept® our proprietary cloud-based platform serves corporate payers, their suppliers and the card issuing and acquiring communities. Boost Intercept® automates and streamlines commercial card payments for all stakeholders by eliminating the need for suppliers to manually extract card data and process transactions via hardware or software. All transactions are processed to guarantee the lowest cost of acceptance and detailed remittance data is provided to suppliers in a format that can be seamlessly integrated with their ERP, thereby expediting and simplifying the reconciliation process. Boost Intercept® is the only platform that automatically transforms "ghost" and/or single use card notifications into straight through processed payments, paving the way for expanded acceptance and incremental card-based spend for treasury clients.
